## SUMMARY

Detail-oriented Java Full-Stack Developer Trainee with a strong foundation in Core Java, Data Structures, and Relational Databases. Graduating in 2025 with an 8.15 CGPA from Savitribai Phule Pune University. Skilled in developing responsive frontend interfaces using React.js and Next.js, paired with efficient backend management. Experienced in integrating AI APIs and modern BaaS solutions like Supabase. Committed to writing clean, maintainable code and solving complex problems within dynamic engineering teams.

## Skill Set

### Technical Skills

- **Programming Languages:** Java (Core & Advanced), C, JavaScript, SQL.
- **Web Technologies:** HTML, CSS, React.js, jQuery, Bootstrap.
- **Frameworks/Tools:** Spring Boot, Hibernate.
- **Databases & Backend:** MySQL, PostgreSQL.
- **Tools & Version Control:** Git, GitHub, Jira, Maven, Jenkins, VS Code, Postman.
- **Soft Skills:** Analytical Problem-Solving, Team Collaboration, Adaptability, Time Management.

## PROJECTS

### 1. AI Expense Tracker

15 Jul, 2024 – 15 Jun, 2025 (Team Size: 4)

- **Purpose:** Developed a smart financial management tool to help users track, categorize, and analyze expenses efficiently.
- **Use/Features:** Integrated the Gemini API to automate expense categorization and identify spending patterns, providing users with actionable insights.
- **Features:** Implemented user authentication and management using Clerk.
- **Technical Keys:** Next.js, Tailwind CSS, Shaden UI, Supabase, Gemini API, Clerk.

### 2. E-commerce Website (Grocery Store Management)

15 Jul, 2023 – 15 Apr, 2024 (Team Size: 4)

- **Purpose:** Designed and developed a full-stack e-commerce platform for grocery stores.
- **Use:** Created a user-friendly front-end for customers to browse products and place orders online.
- **Features:** Built a comprehensive back-end management system for store owners to manage inventory, process orders, and analyze sales data, improving operational efficiency.
- **Technical Keys:** HTML, CSS, JavaScript, PHP, MySQL.

## EDUCATION

- **B.E. in Computer Science & Engineering** | *Sinhgad Academy of Engineering (SPPU)* | **CGPA: 8.15/10** | 2025
- **Higher Secondary Certificate (HSC)** | *PDEA's Waghire College (MSBSHSE)* | **82.17%** | 2021

## Internship

**Front End Web Developer (Intern)** | *System Tron* | Jan 2024 – Feb 2024

- Developed and optimized responsive web components using **HTML**, **CSS**, and **JavaScript**.
- Collaborated on task-based projects to improve UI/UX performance and cross-browser compatibility.
- Strengthened version control practices using Git for collaborative development.
